PART SIZE

FROM <1 MIL THICK TO 0.025"
SHEETS UP TO 36" WIDE X 75" LONG

TOLERANCE

+/- 10% OF MATERIAL THICKNESS*

**We are capable of matching or beating our competition in regard to tight tolerances. Generally speaking, a tolerance of +/- 10% of the material thickness is possible using photochemical etching technology.*

OTHER SERVICES

PMA provides a number of additional post-etch services to assist our customers with a finished product that is ready for the next step of manufacturing or assembly process, some of which are performed in-house, or managed through a trusted local partner.
